PLANNERS COMMENTS

Congratulations to everyone who made it round their course!

It was not my intention for people to be out for so long, or for there to be such a high rate of retirements. Unfortunately, the weather slowed people far more than anticipated. Apart from a few Scafell teams, times were about 150% of what would be expected in better conditions. After the ill-feeling created in previous years by the timing-out of teams at the checkpoints, I had tried to ensure that the minimum of teams would be timed out.

Again, I underestimated the effects of the weather. I apologise to those teams who were timed out, (however, it may be better to be turned back half way round the course than to carry on and finish in the small hours of the morning).

Next year we will issue alternative descriptions for shortened 'wet-weather' courses in the event of rain or mist, and plan the courses to ensure that all teams in the Kirkfell, Wansfell and Bedafell classes take between 4 and 8 hours on the first day.

I would be interested to hear peoples views on the format of the event. In particular, the use of the Harvey map, the harder checkpoints and the changes made to the style of the Klets course.

MY THANKS TO:-

The Backpackers Club, who provided marshals for every checkpoint and were still prepared to help out at the starts and finishes.

The National Trust, owners of 90% of the competition area, both for allowing us to use the area and for all their work in preserving the beauty of the Lake District.

The North West Water Authority, owners of Ullscarf and Wythburn.

Keith Rowand, the farmer at Stool End Farm. Mr Hodgson, the farmer at Greenburn.

The Lake District National Park Authority. Julia (computer expert) Jenny (registration) Davey, Glen and Keefe (car parking). The Langdale Mountain Rescue Team and the Ambleside Police.

RETIREMENTS:-

A significant number of teams did not hand in their control cards on retiring. As a result, we had no way of checking who was still out on the Sunday evening, and the Mountain Rescue Team was almost called out. (In fact everyone had finished). Anyone failing to hand in their control cards next year will be disqualified **FROM ALL FUTURE SLMMs**.

AN APOLOGY:- To Philip Lumley/Tony Coyne, winners of the Kirkfell 1 class who were omitted from the prize-giving. Also to M. Quinn and R. Burke who were wrongly awarded the trophy.

NEXT YEARS ENTRIES:- Entries for next years event will be strictly limited to 500 teams on a first come - first served basis.

MARTIN BAGNESS

Saunders Space-age Lightweight

SPACE-PACKER GT.

Identical in design to the Space-Packer but with larger dimensions - the futuristic 'transverse hoop' design gives a groundspan of 110" in diameter. The Space-Packer GT is supported by a single flexible pole to an aerodynamic shape that will withstand the most extreme weather conditions.

This space-age tent offers a remarkable amount of living, storage and cooking space. It weighs only 6lb and packs into a single bag measuring 19" x 5". Yours for about £185.

There are 16 tents in the Saunders range covering the varied requirements of solo backpackers right through to families and youth clubs. To receive a copy of our new colour brochure, please send 30p to help cover cost and postage.

Robert Saunders (Chigwell) Ltd.,

When a famous tentmaker of 30 years standing produces outdoor leisure clothing, you know you can believe in it!

An absolute 'must' if you want to stay naturally cool when active and at the same time benefit from the lightweight comfort and weather protection offered by all-season jackets, trousers and pullovers.

This proven and effective combination has been brought together for the first time by Robert Saunders — always at the forefront of advanced hi-tech fabric development — the design concept of this new leisure wear was conceived with the benefit of the latest advances in microfilament technology.

Crease resistant when packed small

Small pores to exclude and dissipate raindrops

Drys in ten minutes after washing

Completely permeable for natural breathing

What this means is that the fabric is woven from many extremely fine denier fibres to achieve a high density weave which achieves a superb and totally natural level of wind and resistance without artificial coatings. The fabric "breathes" naturally — it is kind to the environment of your body. The pores in the fabric are small enough to exclude rain-drops but large enough to permit the natural release of smaller perspiration droplets — even in conditions of exertion in adverse weather.

No coating means no reproofing. The fabric is strong and durable by simple virtue of the way it is made. Garments will tight pack with crease-resistant good looks — and will fast-dry. Available in colour combinations of Mauve, 2 shades of Green and 2 shades of Stone.

For further information and colour leaflet, contact:

A FEW WORDS FROM THE EDITOR

The 13th (unlucky for some!) SLMM with its 50% retirement rate was subjected to the worst weather conditions ever experienced since the event first started in 1978. Continuous rain, poor visibility and low temperatures – a classic recipe for disaster. Most of the suggestions and criticisms submitted in last years questionnaires were acted upon but apart from the catering, which was probably the best we have ever enjoyed, the event planners expectations were far from fulfilled. (See planners comments on page 3.)

We have however, had our morale boosted by a considerable number of congratulatory letters from participants. More in fact than in any other year and for these, we thank the writers.

One particular aspect of dissent which must be explained was the location of the Friday night camp-site which was originally agreed on by the Lakeland Authorities to be at the site adjacent to the start of the event. At the beginning of June, when the programme was going to press, we were informed that due to internal administrative problems, the site could not be made available to us and we were therefore obliged to find an alternative site which was at Chapel Style, a considerable distance from the start and a great inconvenience to both competitors and organisers.

Next years SLMM will be limited to 500 teams (1,000 competitors) on a **FIRST COME - FIRST SERVED** basis and final closing date will be January 1st 1991.

A special word of thanks to Ned Paul, Editor of "COMPASS SPORT", and his new magazine, "UP & DOWN", and John Traynor, Publisher of "WILDERNESS/ODYSSEY", and "MOUNTAIN EAR", both of whom travelled considerable distances to cover the event.

LAKE DISTRICT *Appeal*

Millions of us look to the mountains to escape from our everyday lives. But, as a result of the sheer weight of numbers of visitors on the fells, many Lake District mountain paths, just 30 years ago narrow grassy trails, can now be eroded eyesores.

How much pleasure or freedom can there be in sweating up an eroded river of stone 70ft wide created by the tens of thousands who went before?

The National Trust has already spent hundreds of thousands of pounds rebuilding the worst eroded paths, including Helm Crag, Sty Head, Grains Gill, Sour Milk Gill and many more. It is expensive work and slow — averaging 15 yards a day is hard going for a team of four. There is a long way to go yet.

The Lake District Appeal aims to raise £2 million to help maintain and preserve the Lake District, including its mountain paths. In 1988 it is helping to pay for footpath repair teams in Borrowdale, Langdale, Grasmere and Wasdale.

Among the 26 local on-the-ground staff paid for by the Lake District Appeal is MICK LUMLEY — Supervisor of the Grasmere footpath gang. *I've done a lot, from diamond grinding and polishing to a short period mucking-out elephants in a circus. But nothing compares with working here. Mick joined a Trust footpath repair gang in Langdale in 1985, after spells as a stone-waller and forester. I love it. I'm not sure why. I'm curing the ugly erosion, patching a path that will last way beyond me. I get an immense amount of satisfaction from the job.*

Whilst working in Langdale, Mick heard that the Trust was going to be able to create another specialised footpath gang in Grasmere. With 2 years experience behind him, he was offered the position of supervisor of this new gang. *I do it because I love the work. I enjoy what the Trust does, and I believe in looking after the countryside. I even love it when it rains, you just get wetter. These paths will last for hundreds of years just like the mediaeval pack horse trails.*
