A WORD FROM THE SPONSOR

It's difficult to know how to say "Thank you" without repeating oneself, particularly after 22 years of saying just that, and this with SLMM No. 23 looming over the horizon – but.... thank you I must! for your continued support, without which the SLMM would not be the major success that it is today.

What did you think of the overnight camp? – eh!! – superb wasn't it!!!

My thanks for the continuing success of the SLMM also go to Martin Bagness, Charlotte Webb and their assistants, and to Wilf's catering whose organisation copes with the unpredictable pressures of demand that 1300 plus three course meals, together with all the drinks that you wish to drink, – that is placed upon them year after year, these together with St. John Ambulance, local authorities, the National Trust, Mountain Rescue Teams, Basil Martin of M & B printers, E & K Jewellers, The John Ruskin School, Lake District National Park, Rydal Estates, the Forestry Commission, Walna Scar Commoners, Torver High Commoners, and Felicity Martin for the use of her pictures (she is writing an article about the S.L.M.M. for the October issue of Compass Sport) plus Major John Pennefather, my daughter Carolyn and of course, Alan Stiling and his team from the Backpackers Club (who are listed elsewhere in this booklet). What would we do without them!

Please note that on the application form for the year 2000 entries, that I have requested that you indicate of what outdoor magazines that you read or subscribe to. It would be appreciated if you could indicate this information where appropriate, or name the magazine if not listed.

Please also refer to our clothing advert which is in respect of clothing of the highest quality – at half price! – these items are offered on a money back guarantee, by return of post, if not satisfied. We have only minimal quantities of these discontinued lines.

May I draw your attention to the advert for "SeberTech" which we have printed twice – hopefully so as not to escape your attention. These high tech tools are being marketed in Europe and elsewhere by an old pal of mine, Jerry Moore, and I would like you to give him your support by purchasing one or more of these, or, if you have already got something similar, you may consider purchasing one as a treasured gift for a special friend this Christmas. Details of this tool which you can rely upon to carry you through to the next Millennium and well beyond(!) can be obtained from Burton McCall of Leicester, whose details can be found at the foot of this page. You can identify the advert that I am referring to, it is listed under the heading:-

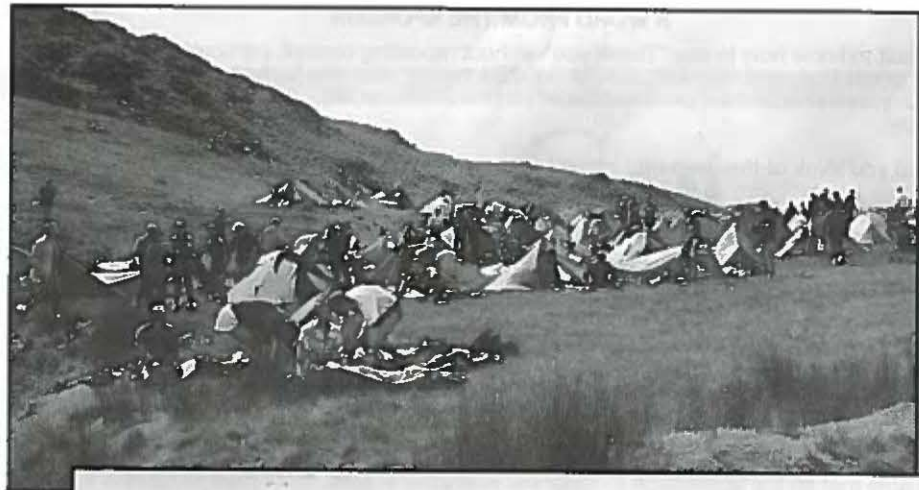

"You've gotta have (at least) one!"

Please forgive the neologism – My thanks to you all once again, keep up the training – see you next year.

Yours sincerely,

Robert Saunders

SAUNDERS LAKELAND MOUNTAIN MARATHON 1999 CONISTON

PLANNERS COMMENTS

Its never easy finding the right length for the courses. An extra 10% or 15% in distance can make all the difference between reaching the Day 2 finish with a sprint and a smile, or crawling in with barely enough energy to make it across the field to Wilf's Cafe.

This year there were a great many smiling finishers. Following the tough years of '97 and '98, I decided that in future the courses should be as pleasant as possible without compromising the challenge of the event. The Coniston Fells certainly helped in achieving this aim; the area is very enjoyable to run over, and definitely faster than, say, the Helvellyn Range or the Central Fells around Scafell. It was possible to make satisfyingly fast progress across the lower fells around Caw. I hope that this placed the emphasis on racing-slick navigation and covering the ground quickly – rather than on sheer survival. In addition, I lopped a few kilometres off the course lengths – not much, but it seemed to make all the difference.

I intend to maintain the same course lengths and winning times in future. Please let me know if you disagree with this, or if you have any other ideas for improving the courses.

Martin Bagness
July 1999

Many thanks to the following:

The Backpackers Club (checkpoint marshals)
All the other voluntary helpers on starts, finishes, parking
John Ruskin School and Liz
The National Trust
The Lake District National Park
Rydal Estates
The Forestry Commission (for that checkpoint!)
Walna Scar Commoners
Torver High Commoners
Major General Pennefather (mid-camp)

"I've Got To Have One!"

-Consumers

M² SeberTool

SeberTool 2000 Series

Includes

10

Tools!

Rugged, demanding consumers know handy, high-quality tools when they see them - SeberTools. This year SeberTech introduces two new models to add to the M², the multi-purpose tool that fits on a key ring.

M⁴ SeberTool Fits Comfortably in Your Hand

Lightweight & Convenient

Rugged & Versatile

Comfortable To Use

Patents Pending

ROBERT SAUNDERS HI-TEC LEISUREWEAR

Influenced by advances in microfilament fabric technology, the design concept of this new system of hi-tec outdoor leisurewear was conceived early in 1988.

The fabric is woven from many fine denier fibres to achieve a high density weave which is naturally wind resistant... breathable... and kind to the environment of your body.

Completely permeable, windchill and shower resistant, our microfilament fabric clothing will keep you in lightweight comfort over a wide range of conditions.

Machine and hand washable, the shower resistant qualities can be enhanced when heat tumble dried. If dry cleaning, simply ask for the re-proofing process to be included.

Our clothing has been designed to be particularly suitable for most outdoor and travel activities including cycling, mountain biking, yachting, canoeing, golf, walking, jogging and touring. A must for those who wish to be stylishly casual.

Five Oaks Lane, Chigwell, Essex, England IG7 4QP.
