HOW CAN WE IMPROVE THINGS?

Now that the dust has settled on this years SLMM it has become evident that a complete re-think is necessary for next years event.

Every marathon brings its crop of letters, some complimentary, some complaining. This year unfortunately, the latter have been in the majority and this is something which is causing the sponsors, Robert Saunders (Chigwell) Ltd., a high degree of concern.

Bob Saunders wishes to express his thanks to everyone who has taken the trouble to write and all complaints have been forwarded to Keith Fazey, the event organiser. A great deal of constructive criticism has been received and these will assist in the planning of future events. The criticism mainly cover four aspects of the Marathon.

1. The courses set for each class.
2. The closing times of the checkpoints.
3. Catering.
4. Delay in participants receiving final results.

On the subject of the courses for each class, it would appear that the past 2 years have inclined more to endurance than to orienteering and this will be looked into most carefully for 1990 as a balanced combination of both is the ideal.

The closing times for checkpoints has never in the past been clearly defined. These times will in future be clearly stated in the programme.

One cannot of course expect marshals to remain on duty indefinitely. They also have homes to go to, but cases have arisen where competitors have completed the course, calling at all checkpoints, some of which have not been manned. The result has been that although they have completed the course, their cards have not been marked, thereby rendering them ineligible for their certificate of completion. For this years event, any competitor who encountered this situation is invited to write to Robert Saunders (Chigwell) Ltd., (enclosing a

large s.a.e.) and their certificate will be sent to them by return.

Complaints on the catering facilities have been mainly centred on the limiting of one drink per person with the end of course meal. This, in the past has been considered necessary as the second "cuppa" tends to extend to a lengthy chat which occupies limited table space for later arrivals. This problem will most certainly be taken care of next year.

Delay in publishing final results has always been a headache and as the numbers of participants increase, the situation seems to get worse. For the last 2 years, all timings have been computerised without any marked improvement and the whole process is being reviewed for next year. We endeavour to produce an attractive programme and results booklet, the latter containing numerous photographs of the current marathon. Production of this booklet does of course entail extra time and work. Another item being looked into for future events.

The SLMM has always been, contrary to general belief, a non-profit making event and really is, staged for your benefit. As participants who encounter all of the snags and difficulties which of course must arise during 2 arduous competitive days on the fells, your opinions and criticisms are welcome.

Are the courses set too difficult? Should we produce a straightforward broadsheet of final results, thereby saving production time on a booklet? How late should the marshals remain at their checkpoints?

A questionnaire has been included in this booklet to enable you to give your own ideas to improve the standard of future marathons. You can be assured that every completed reply will receive the most careful attention and suggestions for improvements seriously considered where practicable for 1990.

The "Star Trek"

A superb fast pitching tent. The polycotton inner is fitted with a unique pocket system for storing fragile items outside the tent from within. Net doors are fitted as standard at each end. The 100% polyester flysheet has greater stability and UV resistance than nylon. Fully taped seams with a PU and metallic coating for reduced condensation. The throw over flysheet can be reversed with a reasonable degree of success to reflect heat in hot weather.

	INNER	FLYSHEET
Width	132cm	175cm
Length	214cm	346cm
Height	114cm	122cm
Weight	3.75kg

A "THANK YOU" TO THE MARSHALS

For many years, the Backpackers Club have furnished the SLMM with marshals for the event. These are all volunteers who willingly give their week-end to camp out on the fells at the various check points to record the times of the competitors. An arduous task which can become extremely unpleasant if the weather is unkind as it has been on many occasions in the past. This year, some forty two stalwarts carried out these duties and I feel that on behalf of us all, their names should be on record together with our deepest appreciation and thanks.

QUESTIONNAIRE

Let's have your views on the SLMM

1. Are the set courses too difficult?
2. Should the emphasis be on endurance or orienteering?
3. What do you consider to be the latest closing time for checkpoints?
4. Are the catering facilities adequate?
5. Are overnight campsite facilities adequate?
6. Should the number of competitors be reduced or restricted?

OBSERVATIONS

NAME (Block Letters)

ADDRESS

Completed questionnaires are requested not later than Friday 1st December 1989 to:-

Robert Saunders (Chigwell) Ltd., (SLMM Questionnaire)
Five Oaks Lane,
Chigwell, Essex IG7 4QP.

ACCESSORIES from SAUNDERS

SLEEPING BAG

A very lightweight sleeping bag for two season use, designed for use in fellsports and lightweight backpacking. Manufactured with an "ISODRY" filling, the thermal insulation qualities remain fairly constant with washing. The inner and outer is made from "PERTEX" because of its well known ability to dissipate moisture.
Weight 2 1/4 lbs.

RUCKSAC

A small 2 litre rucksack manufactured from super quality "NYTEC". Produced to satisfy the demand of SLMM participants who seek items with that logo. Supplied in environmental green and fully seam sealed.

MAP CASE

A useful map case, easy to use and with a convenient clip on facility. An absolute must for those going into unfamiliar areas.
